TELTONIKA

EASY KEY TO IOT

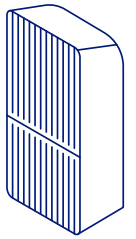

TELEMATICS SOLUTIONS

World leading tracking hardware for aftermarket and OEM applications

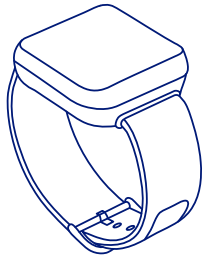

NETWORKING EQUIPMENT

Professional networking equipment with cellular 4G LTE and Wi-Fi connectivity

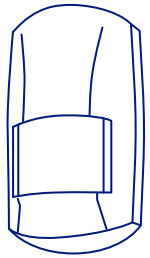

EV CHARGING DEVICES

Innovative electric vehicle charging solutions for more efficient and sustainable driving

TELEMEDICINE PRODUCTS

Telecare, health safety and protection solutions for lone workers and elderly people

SECURITY SYSTEMS

Hybrid security solutions for industrial and residential buildings, advanced car alarm systems

FIRMWARE

— Common for all our tracking devices

— Constantly improved with new features

— Regularly updated in manufacturing process

TCT – TELEMATICS CONFIGURATION TOOL

— Auto update

— Search & filters

— User-friendly interface

— Parameter dependencies

— Device setup wizard

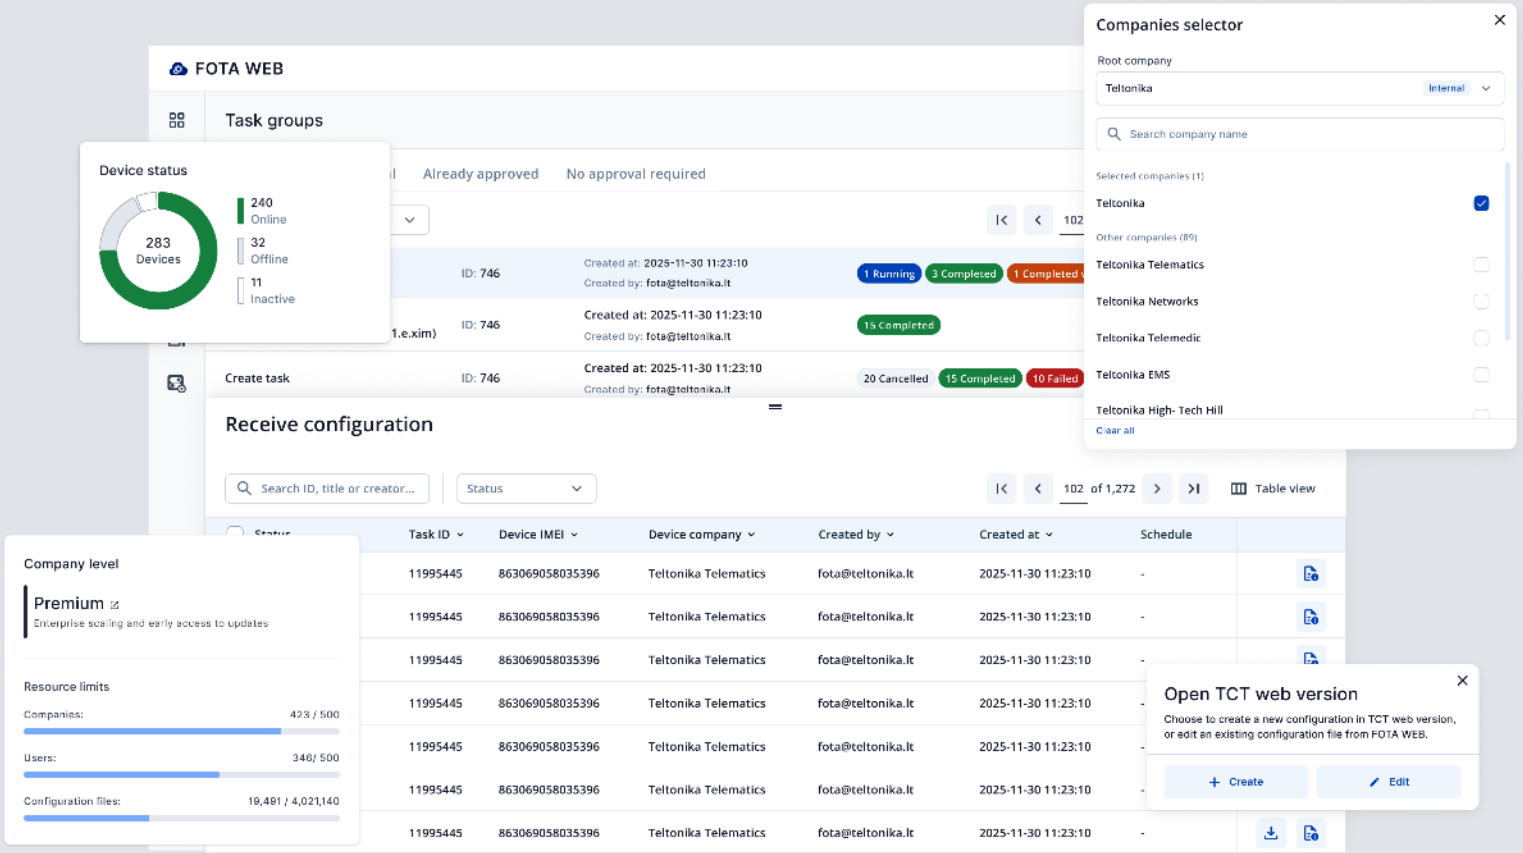

FOTA WEB

— Remote device configuration and update

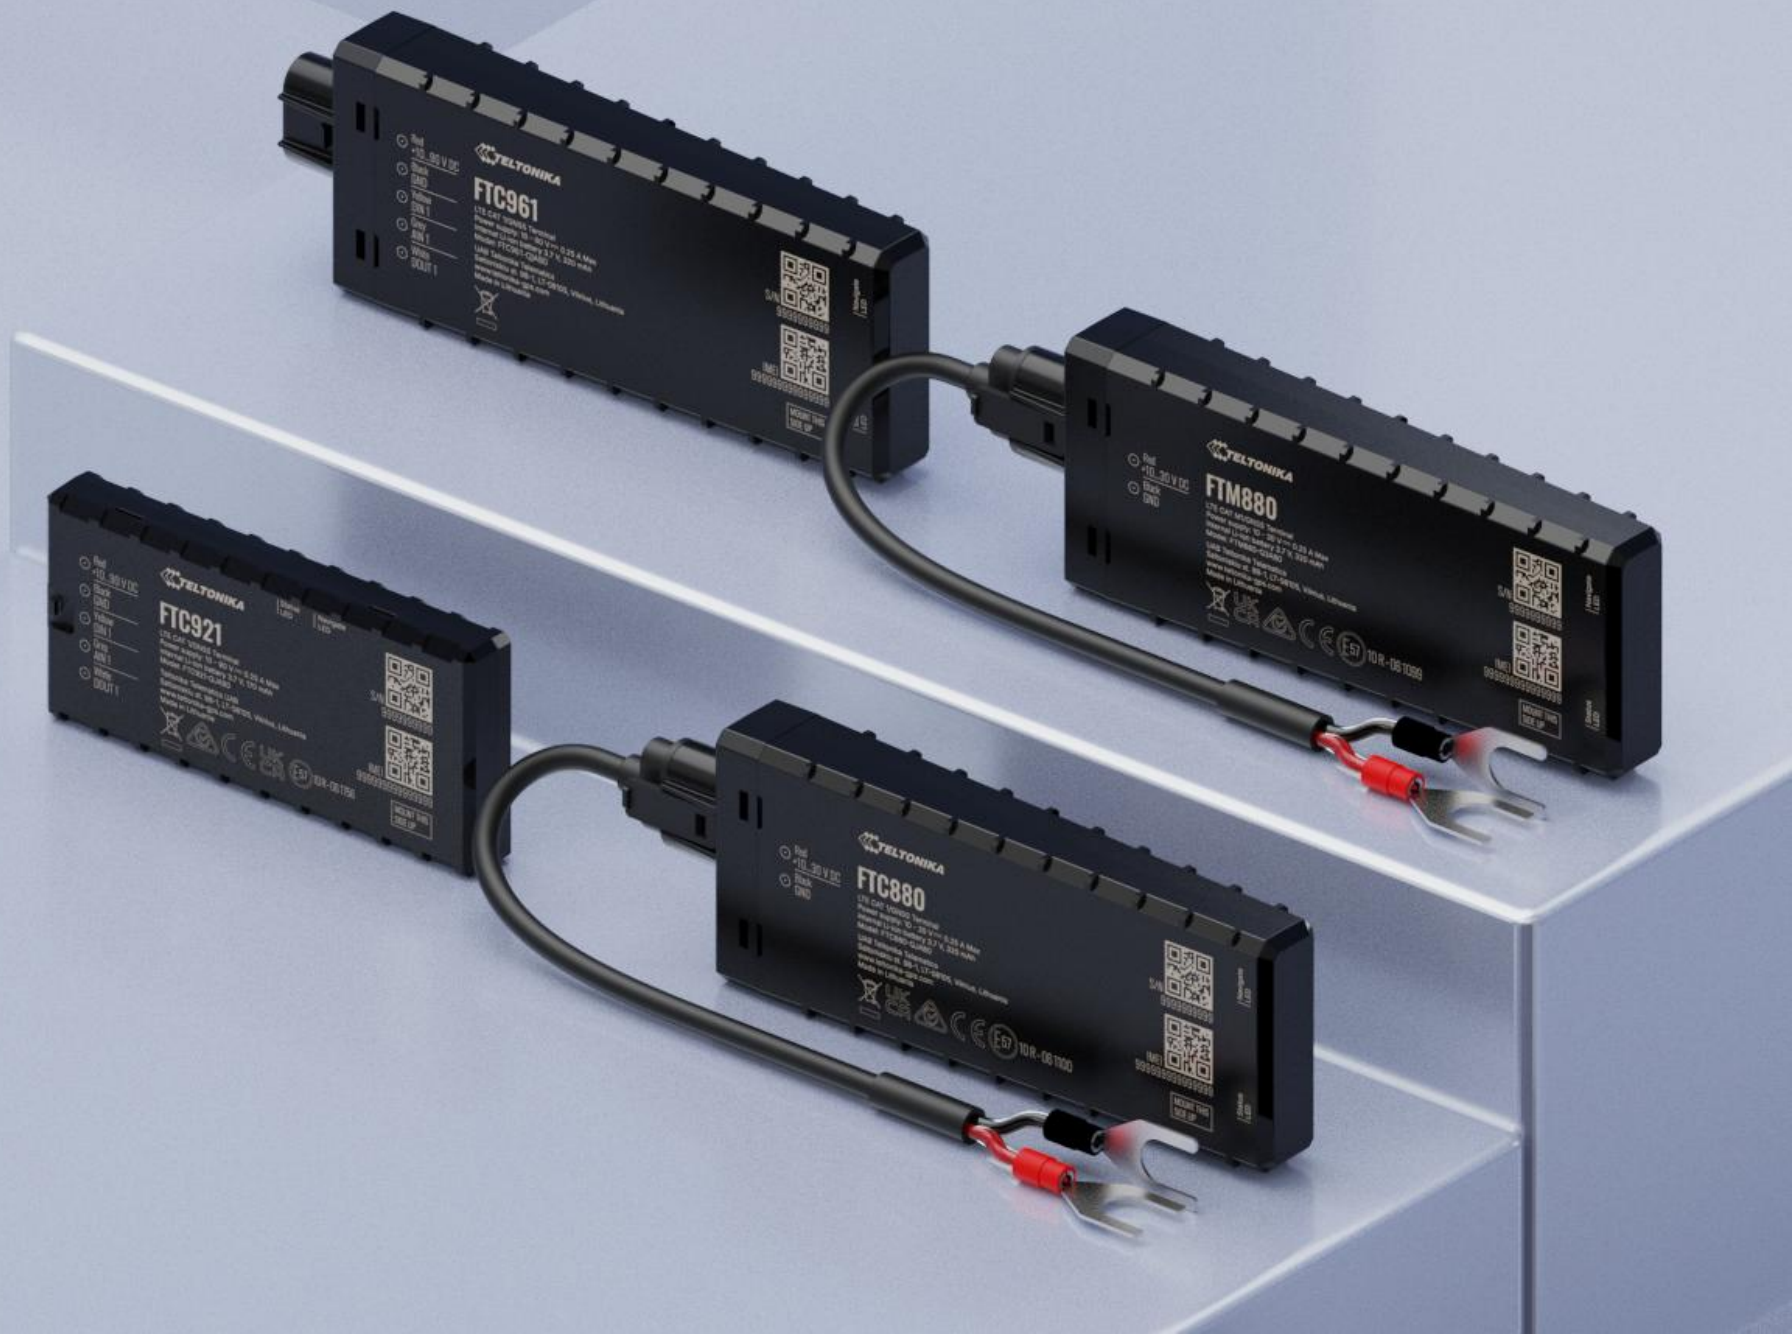

— Device and company management

— Smart groups for task automation

— API for seamless data integration
